

BLS Healthcare Provider Course

This course is designed to teach the skills of CPR for victims of all ages, use of an automated external defibrillator and relief of choking. It is intended for participants who provide health care to patients in a wide variety of settings.

The BLS Healthcare Provider Course is designed to provide a wide variety of healthcare professionals the ability to recognize several life-threatening emergencies, provide CPR, use an AED, and relieve choking in a safe, timely and effective manner. The course is intended for certified or noncertified, licensed or nonlicensed healthcare professionals.

Healthcare providers, such as physicians, nurses, paramedics, emergency medical technicians, respiratory therapists, physical and occupational therapists, physician's assistants, residents or fellows, or medical or nursing students in training, aides, medical or nursing assistants, police officers, and other allied health personnel.

This course is designed for a healthcare worker who must have a course completion card for employment.

New Provider course is approximately 4 hours.

Renewal course is approximately 3 hours.
(current copy of your CPR card required for class).

We provide individual training at our office for those who are in a hurry to complete training and receive a card. We can usually schedule an individual class within 4 days of your request.

BLS Healthcare Provider (Initial)

BLS Healthcare (Renewal)

We will schedule a customized class for your group at your location to fit your schedule with a minimum of 6 students. We offer American Heart Association CPR, ACLS, PALS classes in Missouri and Illinois.
