

Heartsaver CPR in Schools

Heartsaver CPR in Schools Course is designed to teach middle and high school students the lifesaving skills of CPR, how to relieve choking, and how to use an AED (automated external defibrillator). Students will receive a Heartsaver CPR in Schools Course Completion Card.

The course appeals to students through illustrations of teens and a unique training video featuring interviews with teens and video footage. Also, the course's modular format is intended to offer schools with the flexibility to teach the course over several class periods.

Full course is 3 hours, and can be divided into 2-3 class meetings.

Â

We provide individual training at our office for those who are in a hurry to complete training and receive a card.Â We can usually schedule an individual class within 4 days of your request.

Heartsaver CPR/AED/First AidÂ Â Â Â Â Â Â
